Country	United States
Agency	Agency for International Development
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	3

Project Description

Our work in Guatemala, Honduras and El Salvador, commonly referred to as the Northern Triangle, has ranged from pilot programs, government-to-government work and private-partner collaborations. We have focused on issues relating to health, education, economic growth, environment and democracy. The Northern Triangle Introspective Database project is focused on creating a narrative from our body of work to quantify how we have contributed to the United Nation's Millennium Development Goals. Some of the questions we want to answer are: what have been the most prominent impacts of our projects? What has worked? What millennium goals have contributed to over the years?
